

BFB Program for PhD students supporting innovative ideas

The BFB supports innovative ideas of PhD students with up to 10,000 €.

You have an idea or a topic which you would like to work on or deepen **outside your thesis topic**, but you lack financial support to bring it to life? Our IID grant will put you in a position to pursue that idea!

Send your proposal (not more than one page, including a description and an estimate of costs, abstract of your thesis) until April 30th to bfb@uni-bonn.de. Joint initiatives of members from different institutes and faculties will be especially promoted. This year we can support two proposals.

Only members of BFB groups (you can check on the BFB website [here](#)) are eligible for funding.

The steering committee will decide on the funding.

Deadline for submission is April 30th 2025, and the money has to be spent until December 31st, 2025.

Grant recipients will present their results at the annual meeting in 2026.
